

**Sailing Instructions**  
**Sixth Annual Tom Collier Memorial Regatta**  
**9 August, 1997**

Purpose. Tom Collier was an avid sailor who contracted and died of cancer at the age of 31. He was a member of KHYC and will long be remembered for his strength and courage during his 3 year battle with the disease. This regatta is intended to remind us of the special person that Tom was and to generate revenue for the Cedars-Sinai Medical Center to fight the disease that took his life and the lives of many others like him.

Rules. This race will be governed by the 1997-2000 ISAF Racing Rules of Sailing, the prescriptions of US Sailing Association, and PHRF except as modified by these sailing instructions and the back of the current KHYC course chart. The 720 degree penalty as prescribed in the ISAF Rules shall apply.

Handicaps. All boats will use their local area PHRF ratings where available. When a PHRF rating is not available for a particular class of boat, one will be generated by converting from the Portsmouth rating for the boat. If neither a PHRF nor a Portsmouth rating is available, the rating for the boat will be assigned at the discretion of the race committee based on boats of similar speed and performance.

Start. The start line shall be located at "S" mark as shown on the KHYC course chart. The start line is between an orange flag on the race committee boat and an orange or red flag in the water. This is an inverted start handicap event with the higher rated boats starting first. The start sequence shall be as described below.
